## Econo Max Frame

Steel Frame

Affordable

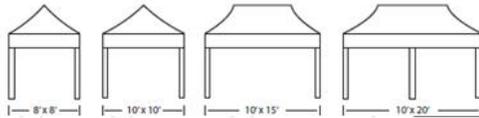

Powder Coating

### Description

Our Econo Max frame is a perfect entry level option for those looking to get a commercial grade tent on a budget. With a 2 year warranty, our powder coated steel frame provides better paint durability in comparison to standard paint. The enamel coating is heated to a high temperature and bakes onto the surface of the metal thus providing a hard enamel surface.

### Specifications

Truss Bar	Leg Dimensions
13mm x 23mm	30mm

## Dura Max Frame

Best Seller

Anodized Aluminum

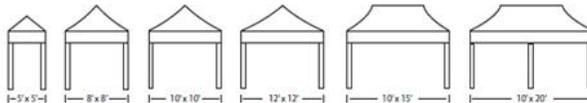

Largest Selection

### Description

The Dura Max is our most popular frame due to its low price point & 8 year warranty. Our plastic fittings are thicker & more solid than standard pop-up tent fittings. We only use non-recycled plastics for all of our plastic fittings, which provide better resiliency during rigorous handlings. The push button adjuster is durable and allows for smooth easy sliding of the legs and truss bars when expanding the frame.

### Specifications

Truss Bar	Leg
15mm x 30mm	36mm

## Rhino Max Frame

Tough

Long Lasting

All Aluminum

### Description

Our Rhino Max is our entry into heavy-duty commercial grade frames. Unlike our Econo Max and Dura Max frames, our Rhino Max frames come with all aluminum connectors. With all aluminum connectors you won't have to worry about cracked fittings anymore. Backed by our 9 year warranty, the Rhino Max is a testament to our quality and durability.

### Specifications

Truss Bar	Leg Dimensions
15mm x 32mm	40mm
