6.) PRB Report: There is an on-line survey regarding the Specific Plan the public can take. The monies PRB has cannot be use for maintenance. Restaurants must request a change of use if they want to continue using sidewalks and parking spaces for dining.

7.) Committee Business: Discussion with the Planning Department about the SE Valley Community Plan Updates. Present from the Planning Department; Tal Harari, David Olivo, Miles Orr. Discussion on what we wanted to see in our community. They are doing a new analysis on Ventura Boulevard now that Specific Plan will be part of the Community Plan Update. Good discussion on what could be done on the Ventura corridor. Vision wants to look at adding density with housing but keep community walkable. Keep neighborhoods low density while studying new ways to add that density on the corridors. Mashaël updated committee on the Koretz SB 9implementation motion that should be voted on soon by the City Council. CD 4 is interested in the ongoing discussion of how to add density in Sherman Oaks while being aware of the desire of neighborhoods.
