### **SECTION II - PROJECT DESCRIPTION**

### 4) Please describe the purpose and intent of the grant.

EnrichLA's Garden Ranger Program offers weekly, interdisciplinary garden-based lessons to thousands of students throughout Los Angeles, corresponding to both California Common Core State Standards and Next Generation Science Standards. The lessons are fun and engaging and provide participants with hands-on opportunities to learn about nutrition, science, and environmental stewardship. In addition to teaching our garden-based curriculum, Garden Rangers also provide maintenance of the edible gardens throughout the academic school year and during the summer months to ensure the gardens thrive. Funding from this grant would help support our current program at local schools within the district through the purchase of materials for both lessons and activities as well as supplies for edible garden care, like seeds and seedlings.

# 5) How will this grant be used to primarily support or serve a public purpose and benefit the public at-large. (Grants cannot be used as rewards or prizes for individuals)

EnrichLA's target population is all K-12 students in the Greater Los Angeles area, with priority given to Title 1 schools or schools with a higher than average percentage of socioeconomically disadvantaged students. Our Garden Ranger Program nurtures curiosity, environmental stewardship, and strong relationships with nutritious foods and organic growing practices. We believe providing opportunities for tangible success in the garden translates to the classroom and community as students build compassion, confidence, teamwork and problem solving skills, independence, responsibility, and trust. Students help harvest the foods they grow and share them with their families and community. When children develop healthy relationships with the food they grow in the garden, they are more likely to do so in other aspects of their lives and will encourage their families to support their healthy lifestyle and eating habits. EnrichLA's edible gardens also provide our schools and the surrounding community with open, green space where community members of all ages are routinely invited to participate in garden events and workdays. These events provide community members with a fun, active, fulfilling day spent enriching their own neighborhood.
