

MOTION IN SUPPORT OF FILLING VNY CAC VACANCIES

Whereas, there are a number of vacancies on the Van Nuys Airport Citizens Advisory Council (CAC), including two unfilled seats allocated to the Mayor, and recognizing that the CAC has been unable to meet quorum on more than a few occasions, and

Recognizing that the founding documents for the CAC state that the appointed members shall be community representatives of neighborhoods and businesses surrounding the airport, and

Further recognizing that the aviation and non-aviation tenants at VNY have their own association (Van Nuys Airport Association) to advocate for their interests,

The Sherman Oaks Neighborhood Council (SONC) hereby recommends that Mayor Bass appoint Roslyn Dahl and Barry Heins to fill her two vacant seats on the CAC.

Roslyn Dahl, a Sherman Oaks resident is well qualified and an excellent choice to serve on the CAC. She is an executive at a major corporation, a Board member of the Valley Industry and Commerce Association (VICA), member of the Sherman Oaks Neighborhood Council Airport Committee, active with Save Our Skies LA (SOSLA), and has been an attendee and advocate for residents at CAC meetings.

Likewise, Barry Heins is an excellent choice for a seat on the CAC. He is Co-Founder of *Encino Skies*, a grass-roots community awareness and advocacy organization, and a member of the Encino Neighborhood Council Airport Committee. His community involvement in airport issues goes back many years. He has attended and spoken on behalf of *Encino Skies* at numerous CAC and BOAC meetings, and recognizes the need to balance the many roles that VNY plays in both serving and impacting SFV residents and businesses.
